PDF partial image scaling test

This test combines something that test_vectorpdf (reading a partial page) was doing with something that test_isue_266 (scale so large that it has to be scaled back down) was doing, using the vectorpdf extension ("-e vectorpdf").

Basic image:

Header 2	Header 3	Header 4	
column 2	column 3	column 4	
Cells may span columns.			
Cells may span rows.	Table cells		
	containbody elements.		

Scaled up a bit:

Header 2	Header 3	Header 4	
column 2	column 3	column 4	
Cells may span columns.			
Cells may span rows.	Table cells		
	containbody elements.		

Scaled up a lot:

Header 2	Header 3	Header 4	
column 2	column 3	column 4	
Cells may span columns.			
Cells may span rows.	Table cellscontainbody elements.
